

Science of Being, 1998, Eugene Fersen, 0787313238, 9780787313234, Health
Research Books, 1998

1927 We have been so graciously offered the opportunity to add Eugene Fersens 27 lessons to our book collection. For all of you whom have read his book The Science of Being these lessons will be a cherished addition. For those of you who havent discovered Eugene Fersen, whats stopping you? We are proud to be able to share this work with you. The triune system of 27 lessons for the correlative development of the individual. Physically - to rid your self of all physical ailments. To increase and replenish your store of energy at will. To build up a strong, well-balanced, healthy, youthful, attractive body. Mentally - to develop all mental faculties, such as Will Power, Initiative, Memory, Reason, Foresight, Intuition. To blend these improved faculties for clear, creative, successful thinking. To put such thoughts into actual achievement on the material plane. Spiritually - to imbue every thought and act with an irresistible emotional fire. To weld body, mind, and soul into a complete and unified whole. To promote the correlative growth and expansion of these three parts of your nature, and shape them into the strength of character, poise, vitality, and courage you need to make your life pay richly in terms of Health , Success, and Happiness.
